Item 8.01 Other Events.

The Company issued a press release announcing the sale of additional equipment to a customer. The full text of the press release is attached as Exhibit 99.1 hereto and is incorporated herein by reference. The press release which is attached as an exhibit is hereby deemed furnished in this disclosure.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits

The registrant hereby furnishes the following exhibit:

99.1 Press release dated October 9, 2014.

FORWARD-LOOKING STATEMENTS

This current report and exhibit contains forward-looking statements under the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. Important factors could cause actual results to differ materially from those indicated by such forward-looking statements, as disclosed on the Company's website and in Securities and Exchange Commission filings. This current report does not constitute an offer to buy or sell securities by the Company, its subsidiaries or any associated party and is meant purely for informational purposes. The company's valuation of its backlog could change. The statements in this current report and its exhibit are made as of the date of this current report, even if subsequently made available by the Company on its website or otherwise. The Company does not assume any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized, in the City of Waltham, Commonwealth of Massachusetts, on October 9, 2014.

Tecogen Sells Additional Efficient Gas Chiller to Major Manufacturing Plant in Mexico

WALTHAM, Mass., October 9, 2014 - Tecogen® Inc. (NASDAQ: TGEN) today announced the sale of a third Tecochill® natural gas-powered chiller to a major US-headquartered manufacturer of home fixtures for a retrofit of its existing plant in Reynosa, Tamaulipas, Mexico. This new sale adds to Tecogen's growing backlog of equipment and turnkey installations of \$14.5 million as of October 8, 2014.

The chiller (Tecochill model CH-400x), sold through Tecogen's representative Cal frost de Mexico, is the third Tecochill ordered for this plant in Reynosa in 2014. Collectively, the three chillers will provide 1,200 tons of cooling capacity to the plant, commensurate to 1.2 megawatts of electric service had a conventional, electric system been specified. The three chillers are expected to be installed and commissioned by winter of 2015 and will cool the facility's production area.

"The Tecogen units will provide greater energy efficiency, an important part of the manufacturer's sustainability mission," said Arturo Cantu, General Manager of Cal frost. "This forward thinking company, like many Tecogen customers, is quickly moving toward environmentally friendly and cost-effective energy sources."

"We continue to hear from companies looking for energy self-sufficiency," said Robert Panora, President and COO of Tecogen. "Tecogen provides both the ability to diversify energy sources and cut costs through the use of competitively priced, plentiful and environmentally friendly natural gas."

About Tecogen

Tecogen manufactures, installs, and maintains high efficiency, ultra-clean combined heat and power products including natural gas engine-driven cogeneration, air conditioning systems, and high-efficiency water heaters for industrial and commercial use. Tecogen has shipped more than 2,000 units, supported by an established network of engineering, sales, and service personnel across the United States.
